MacSpeech® Scribe — Personal Transcription for Mac OS X

Features

Amazing Accuracy
MacSpeech Scribe provides an astounding accuracy rate of up to 99%. You can continue to increase accuracy as you use MacSpeech Scribe. Moreover, MacSpeech Scribe NEVER misspells a word - typos are a thing of the past.

Your Own Personal Transcriptionist
MacSpeech Scribe easily integrates into your workflow. Just open your spoken-word audio file with MacSpeech Scribe, click the 'Transcribe' button. And MacSpeech Scribe supports up to six speech profiles, ensuring maximum transcription accuracy for up to six different voices.

Super Versatile
MacSpeech Scribe allows transcription from spoken-word audio recordings made on Mac, iPhone and digital recorders, and supports a variety of audio file formats, including .wav, .aif, .aiff, .m4v, .mp4, and .m4a. What's more, MacSpeech Scribe lets you create six individual speech profiles to ensure maximum transcription accuracy for up to six different voices.

Minimal Training Required
With just minutes of training, you'll be using MacSpeech Scribe's superior capabilities.

Punctuation Is A Breeze
MacSpeech Scribe even takes care of punctuation … just speak your punctuation as part of your spoken-word recording, and MacSpeech Scribe converts it to the appropriate punctuation marks.

Exceptional Recognition
MacSpeech Scribe's Phrase Training capabilities allow it to learn as it goes. That means even greater accuracy. MacSpeech Scribe also recognizes 13 distinct English dialect variations.

Word Work = Easy Work
MacSpeech Scribe lets you easily add new words and acronyms, edit and navigate transcribed documents, and so much more. MacSpeech Scribe makes it easy to work with your transcribed document so you can create the perfect product for your needs.
